The U.S. Uniformed Services
Blended Retirement System

Reserve Component

The Fiscal Year 2016 National Defense Authorization Act provides our military force with a modernized retirement plan built for retirement savings. Beginning in 2018, Reserve Component service members can get automatic and matching Thrift Savings Plan contributions, a mid-career compensation incentive, and if they obtain 20 years of service, monthly retired pay for life starting at age 60.* All service members under the current system are grandfathered into today’s retirement system.

Effective Date: January 1, 2018

Retirement System Selection

- Reserve Component members with more than 4,320 retirement points will remain under the legacy retirement system.
- Reserve Component members with less than 4,320 retirement points as of December 31, 2017, will have the choice of whether to opt into the new Blended Retirement System or remain in the legacy retirement system.
- New accessions after January 1, 2018, will automatically be enrolled in the new Blended Retirement System.

The DoD automatically contributes 1% of your basic pay or Inactive Duty Pay to your Thrift Savings Plan after 60 days of service.

You’ll see matching contributions at the start of 3 years through the completion of 26 years of service, and...

You’re fully vested — it’s yours to keep — after completing 2 years of service and it goes with you if you leave.
